

Proteus Workplan 2013

Objective 1:

To improve significantly the accuracy, completeness and currency of information in the World Database on Protected Areas, focusing on data verification, quality assurance and enhancements in interoperability.

Result 1.1: Gather best available data

- 1.1.1: Liaison with data providers
- 1.1.2: Communication with data partners in priority countries
- 1.1.3: Support international secretariats in their data submissions

Result 1.2: Manage and maintain WDPA

- 1.2.1: Maintain and update the WDPA
- 1.2.2: Management of the WDPA

Result 1.3: Deliver WDPA to partners

- 1.3.1: Deliver database to partners and end users
- 1.3.2: Present country-specific information

Objective 2:

To support integrated knowledge products that provide access to information on sites of global importance for biodiversity and increasingly feature sites that are considered national priorities.

Result 2.1: Further development of the IBAT partnership and tool

- 2.1: Access to discounted subscription for the IBAT

Result 2.2: Proteus Partner technical assistance and training

2.2: Provide Technical assistance direct to partners (20hrs/annum)

Result 2.3: Direct support and guidance

2.3.1: Update Biodiversity A-Z and incorporate glossary of biodiversity terms

2.3.2: National Priority Data assessment for priority countries

2.3.3: Consortium to elaborate on IFC PS6 and development of data to meet these requirements

Objective 3:

To compile globally consistent, comprehensive and validated datasets for important coastal and marine ecosystems, and develop a business-relevant baseline of biodiversity priorities in the marine realm.

Result 3.1: Update marine and coastal datasets through the global data partnership

3.1.1: Develop and improve seagrass and saltmarsh data layers

3.1.2: Develop and improve marine megafauna data

3.1.3: Create High Seas designation data layer

3.1.4: Marine data gap analysis

Result 3.3: Improve coastal and marine tool functionality

3.2.1: Improve functionality for ODV

Objective 4:

To share context and insights into the latest trends and developments in biodiversity and ecosystem policy, initiatives, data and tools of importance to business.

Result 4.1: Brief partners on the global biodiversity agenda

4.1.1: Provide briefing and insight to Partners on the global biodiversity agenda
